## Chesapeake & Ohio's The George Washington

*The Most Wonderful Train in the World!*

The George Washington was the premier passenger train of the Chesapeake and Ohio Railway upon its 1932 inauguration and one of the first with all air-conditioned cars. Equipped with heavyweight Pullmans, coaches and diners *The George* was the epitome of elegance and grace. Each Pullman and dining car was named for a person, place, or event that was significant in the life of the train's namesake - George Washington.

Colonial decor was used for the interior of the cars from the color of the walls through the upholstery fabrics and carpeting. Scones and framed prints of colonial and Revolutionary War-era scenes enhanced the experience for the traveller. Meals in the Dining Cars named for colonial taverns were taken from period recipes. Today you can find the fully restored Gadsby's Tavern at the C&O Historical Society's Heritage Center in Clifton Forge, Virginia.

N-scale 7-Car George Washington Car Set - a C&O HS Exclusive, Limited Edition product. Now N-scale modellers can run the George Washington from the post-war era (late 1940s - early 1950s) on their railroad! Produced exclusively for the C&O HS by Micro-Trains Line, these cars have the prototype colors and lettering for the George Washington and are available nowhere else.

A specially prepared booklet on the C&O's renowned George Washington train written and compiled by our Chief Historian is included with each set of cars. **Order today to make sure you don't miss this opportunity!**
